

Work Area Reflective Cone Bars

Work Zone Cone Bars can be quickly installed on traffic cones or delineator tubes to provide a high-visibility barrier that ensures safety for pedestrians and prevents potential hazards in both job sites and public places.

Their lightweight design makes them easy to store and carry, and they feature reflective sheeting for nighttime use.

Made from top-quality commercial grade ABS materials, these retractable cone bars offer exceptional durability. They are available in two different color options: Orange & white reflective stripes or Black with Yellow reflective stripes for nighttime use.

- Cone-Bars are easy to use, and fit over traffic cones using built-in plastic rings at either end.
- Excellent for pedestrian control around roads, trenches, sidewalks, and utility work zones.
- Made from durable yet light-weight PVC plastic with Engineer Grade (EG) reflective striping.
- Available in reflective Yellow on Black, -or- reflective White and reflective Orange .
- Comes in two field-adjustable lengths: 46" bar expands to 80"; 65" bar expands to 120".
- Cone-Bars are a high-quality, durable, reusable, highly effective replacement for warning tape.

Catalog No.	Length (min.)	Length (max.)	Weight	Striping	Construction
TCB-SHORT-YB	46"	80"	1 lb	8"Yellow	EG* Yellow on Black PVC
