SIGNS & SAFETY

Since developing our first temporary sign stand in the 1950s, Eastern Metal Signs & Safety has continually refined our designs to meet today's demands. Built from high-grade aluminum or steel and assembled by hand, our stands feature the signature orange springs that have represented top-quality, Made-in-the-USA products for over 70 years.

We use advanced printing technology to produce all types of Temporary Traffic Control, Regulatory, and Warning signs quickly and accurately, ensuring every order meets MUTCD specifications. With a full line of stocked legends and fast custom options, it's easy to see why customers trust Eastern Metal for their rigid signage needs.

Since 1947, Eastern Metal Signs and Safety has lived by the commitment reflected in our name. We understand how critical high-quality products are to our distributors in today's market. Leveraging our extensive in-house manufacturing and printing capabilities, we deliver a complete range of signage and safety solutions designed to help you win more business, boost margins, and solve your customers' toughest challenges.

- Optimized to fulfill Fastenal Part# orders and utilizing Fastenal Part numbers
- Dedicated and knowledgeable Customer Service Representatives
- Manufactured in the USA
- Many products available to ship WITHIN 72 hours, some next day

**IF YOU DON'T SEE EXACTLY WHAT YOU NEED, WE CAN LIKELY CUSTOMIZE AN EXISTING ITEM OR SOURCE IT FOR YOU. REACH OUT TO OUR TEAM TODAY FOR A QUOTE ON SPECIALIZED ORDERS**

# SIGN STAND COMPONENTS

These MASH-tested stands are perfect for managing a highway project or a local road repair. Eastern Metal has the right stand for the right job.

- Multi-Position Legs: Each leg adjusts to varying angles, providing a stable, level base on embankments.
- Anti-Skid Foot Pads: Integrated high-traction pads help prevent "walking" or shifting caused by high winds and passing traffic vibrations.
- Customizable Release Mechanisms: With several leg-release options available.

Apex-Flex ( C-202-S-DDSH )

## Fastenal Part# 921713786

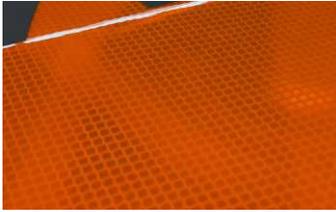

Galvanized steel dual coil-flex wind-deflectable mid size sign stand displays rigid signs up to 2.5' above grade

Apex-Dual-Recoil ( X-552-KL )

# DIAMOND GRADE

Diamond-grade roll-up sign with four Lexan pockets and anti-kiting. This sheeting is a visible light-activated fluorescent, prismatic-lens reflective material designed for producing roll-up traffic control signs used in construction work zones. It provides higher nighttime brightness and increased daytime visibility compared to ordinary (non-fluorescent) colored sheeting. The material is backed with a strong, flexible, gray-coated fabric.

# MARATHON ROLL-UPS

Marathon roll-up sign with four Lexan pockets and anti-kiting. Marathon fluorescent sheeting delivers elevated performance, offering a longer-lasting fluorescent color that extends the sign's useful life and provides outstanding visibility both day and night. Its higher photometric performance ensures superior reflectivity at night and in low-light conditions.

# SUPER BRIGHT ROLL-UPS

One of our most popular products, Super Bright fluorescent prismatic sign blanks are used to create the work-zone signs you see on the road. They deliver maximum visibility at long distances, day and night. Super Bright colors include fluorescent orange, non-fluorescent white, yellow, and the new fluorescent pink recommended for Incident Management applications.

# NON-REFLECTIVE ROLL-UPS

NRFVO Roll-Up Signs are made from a fabric-reinforced, UV-stable vinyl that resists delamination and delivers excellent durability and fluorescence stability. These signs are ideal for maintenance and moving operations. They are intended for daytime use only and are not recommended for night or low-light conditions.

# Important Questions To Ask

## Sign Ordering Form

### 1. Sign Size

What size sign do you need?

- 36"
- 48"
- Custom / Other: \_\_\_\_\_

### 2. Usage Time

When will the sign be used?

- Daytime
- Nighttime
- Both

### 3. Material Reflectivity

Does the material need to be reflective?

- Yes
- No

### 4. Material Type

If non-reflective, select:

- Mesh
- Vinyl

If reflective, select:

- Super Bright (Reflective)
- Marathon (More Reflective)
- Diamond Grade (Highest Reflectivity)

### 5. Sign Stand

Are you ordering a stand?

- Yes
- No

If yes:

#### a. Stand Type

Is this for a roll-up or rigid sign?

- Roll-Up
- Rigid

#### b. Wind Deflection

Do you need wind deflection?

- Yes
- No

If yes, which type?

- Coil Spring
- Leaf Spring

#### c. Leg Release System

Which leg release system is needed?

- Kick Lever (Standard)
- T-Pin
- Direct Drive

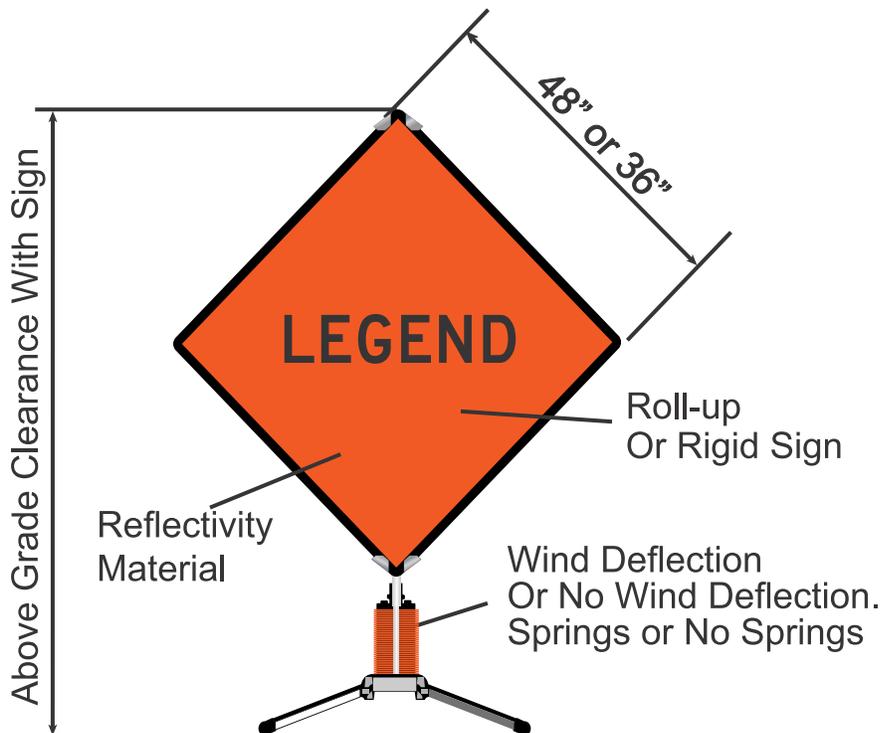

#### d. Sign Attachment

Which sign attachment would you like?

- Spin Handle
- X-Connect Latch
- Rigid Bracket
- Rigid / Roll-Up Bracket
- Quick Release. Height Requirement

Is there a specific height needed?

- Yes: \_\_\_\_\_
- No

## STOP/SLOW PADDLES

Most traffic control regulations require the use of a STOP/SLOW paddle or flagger-helper when performing work on non-highway locations. We offer the paddle sizes and reflectivity option that conform with federal and state requirements. Lightweight, rugged PVC handle and support staff minimizing operator fatigue.

## STOP/SLOW FLAGGER HELPER W/ STAFF

ABS Paddle and PVC Staff are lightweight, non-conductive and rugged. Support-Staff minimizes operator fatigue and increases visibility, improving operator safety.

# RoadMax TRAFFIC DRUM

Maximize work zone safety with Roadmax Traffic Drums. Featuring UV-stabilized polyethylene construction, these drums are designed to resist fading and bounce back from impacts. They provide the critical visibility drivers need and the long-term durability your projects demand.

## SPECIFICATIONS

Material: Impact-Resistant Polyethylene  
 Color: UV-Stabilized Highway Orange  
 Body Height: 36" (0.92 m)  
 Overall Height: 41.38" (1.05 m)

Weight: 8.0 LB (3.5 kg)  
 Minimum Diameter: 18" (46 cm)  
 Base Option: 23 lb Tire Ring  
 Warning Light Hole 0.56"

**TIRE WALL  
SOLD  
SEPARATE.**

**CUSTOM  
PRINTING  
AVAILABLE**

## FEATURES

- Rounded ergonomic handle for easy access with a comfortable grip
- Recessed reflective band tiers for long-lasting protection of sheeting
- Four anti-rotation claws will keep drums facing traffic
- Built-in sheeting edge protector guards against wear during stacking
- Five-tier design for better visibility in heavy traffic

- Double light mounts on handle for added convenience
- Domed top sheds debris and water
- Ribbed bottom lip for easy base attachment
- Two-piece top & base design allows dragging without separation
- Two-piece breakaway feature allows controlled separation on impact
- UV-stabilized bright orange polyethylene protects from sun damage

# TRAFFIC CONE & DRUM PRINTING

MISSING CONES ARE ONE OF THE MOST COMMON AND MOST EXPENSIVE PROBLEMS ON ACTIVE JOB SITES.

CONES ARE FREQUENTLY TAKEN BY MISTAKE, BORROWED BY OTHER CREWS, OR INTENTIONALLY REMOVED. MARKING YOUR CONES WITH PERMANENT IDENTIFICATION HELPS KEEP THEM WHERE THEY BELONG.

## **Discourages Theft & Misplacement**

Permanent markings make cones less likely to be taken or reused by other contractors.

## **Reduces Accidental Removal**

Clear identification prevents mix-ups on multi-contractor sites and ensures cones return to the correct crew.

## **Controls Replacement Costs**

Fewer missing cones decreases the need for reorders and protects equipment budgets.

## **Improves Jobsite Accountability**

Supervisors can easily track equipment and maintain proper work-zone cone counts.

## **Supports Safer Work Zones**

A complete, consistent cone inventory helps maintain compliant spacing and taper lengths.

## **Professional, Branded Appearance**

Printed cones reinforce your company name and present a more organized and credible work site.

# STACKABLE CHANNELIZER

The Eastern Metal Stackable Channelizer is a versatile and durable traffic control device that can be used in a variety of settings. It is made of high-quality materials. Options for Hi-Intensity and Diamond Grade reflective bands provide maximum visibility. The design allows for easy storage and transport.

**Features:**

- High-quality
- Stackable
- Easy Storage
- Transports Easily

**Applications:**

- Traffic control
- Crowd control
- Construction zones
- Emergency situations

**MASH**  **TESTED AND APPROVED WZ-347**

**CB-16-CP  
COMPOSITE RUBBER BASE  
(SOLD SEPARATELY)**

- 42" height (3 lbs) to top of channelizer provides maximum visibility (48" overall height to top of handle).
- RT-7300 Series Stackable Channelizers feature an oversized closed handle for easy gripping & lifting.
- 16 lb bases are hi-compression 100% recycled rubber with a "Sure-Foot" bottom (available separately)."
- Tape-knob" (inside handle) simplifies attaching barrier tape.
- Barricade Warning Lights (available separately) attach easily and securely using a standard 1/2" bolt. Material: High-density polyethylene (HDPE) for durability and weather resistance.
- Color: Safety Orange with UV stabilizers for long-lasting visibility (3+ year lifespan).
- Compliance: Meets MUTCD (Manual on Uniform Traffic Control Devices) standards for enhanced safety.

# PEDESTRIAN SIGNS BASE AND SIGN

Ideal for protecting pedestrians and school children in crosswalks. The frame and base separate on impact to minimize damage to both the sign face and the base. Standard and custom legends are available.

## VERTICAL PANEL (VP)-PEDESTRIAN SIGNS

MODEL NO.	DESC.
VP-6536-YIELD FB	(2) 12"X36" YIELD Panel, 1 frame and base
VP-6536-STOP-FB	(2) 12"X36" STOP Panel, 1 frame and base
VP-6536-YIELD-FB-SZ	(2) 12"X36" YIELD Panel, 1 frame and base
VP-6536-STOP-FB-SZ	(2) 12"X36" STOP Panel, 1 frame and base
VP-6548-FRAME	(1) 48" Frame only (replacement frame)
VP-6532-BASE	37 lbs Composite Molded Rubber Base

Frame and Base separate upon impact, minimizing damage to Frame and Panels. Panels, Frame, and Base are available separately, and are easily replaced if hit or damaged. Barricade Lights (sold separately) increase visibility, and attach easily using a standard 1/2" bolt.

Extra-large frame-top handle allows for easy gripping – with or without light attached. Signs available with either YIELD TO -or STOP FOR and single or double pedestrian symbol (all are MUTCD compliant).
