SIGNS & SAFETY

[www.easternmetalsignsandsafety.com](http://www.easternmetalsignsandsafety.com)

Our name says it all, Eastern Metal Signs and Safety. We understand the importance of our products to our distributors, especially in today's world. With our printing capabilities and manufacturing facility, we offer a full range of signage and safety products. Let us help you win business, increase margins and provide solutions for your customer's needs.

**Advantages:**

- Optimized to fulfill Fastenal Part# orders and utilizing Fastenal Part# part numbers
- Dedicated and knowledgeable Customer Service Representatives
- Manufactured in the USA
- Many products available to ship WITHIN 72 hours, some next day
- We can make custom signs to meet your customers needs

**We manufacture and stock full traffic work zone set-ups.  
With quick response and shipping times.**

**SIGN STANDS**

**ROLL-UP SIGNS**

**REGULATORY SIGNS**

**RIGID WARNING SIGNS**

**BARRELS  
AND DRUMS**

**CONES AND  
CONE BARS**

**POST & SIGN  
HARDWARE**

Customization and additional items are available. Contact us for details.

Our first temporary sign stand was invented and produced in the 1950s. We continually improve and perfect the designs to meet today's needs. Machined from high-grade aluminum or steel and assembled by hand, there is no question that these stands support our core value of safety built into every unit we produce.

Look for our signature orange springs on sign stands wherever you see road construction or utility work zones. They signify top-quality products that have been Made in the USA for over 70 years. If you don't see them, ask for them.

Eastern Metal Signs & Safety utilizes the latest technology to print on all substrates, producing what you need quickly and efficiently.

From Temporary Traffic Control to Regulatory and Warning signs, it's easy to see why our customers choose us for their rigid signage needs. We guarantee your job will be produced by people who understand quality as well as the needs of MUTCD specifications\*.

We carry a full line of Rigid Traffic Control signs with the most popular legends in stock, but if you need a custom legend, please call us for pricing and availability.

# SIGN STANDS

These stands deploy quickly and easily. Our multi-position leg system allows for flexibility even on the most uneven terrain. With additional attention to detail, all of our XFactor stands feature anti-skid foot pads giving you that extra peace of mind on-site. The XFactor Stands have several leg-release systems to best fit your team's needs (Kick-Lever, Direct-Drive, T-Pin). All of these are intuitive and easy-to-use.

Not only have we designed these stands for safety, but also considered you when the job is finished. They fold into an ergonomic, space-saving size for ease of transport because we understand that you take these into the field.

## LEG AND HALF-MAST MATERIALS

- Galvanized Steel
- Aluminum
- Short And Extended Leg Lengths

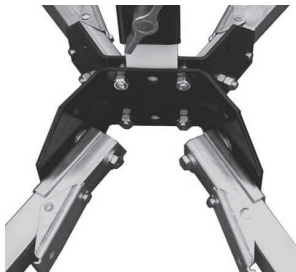

## WIND-DEFLECTION SYSTEMS

- Leaf-Spring
  - Coil-Spring
- All stands are NCHRP-350 accepted.*

# TRAFFIC SIGN STANDS

## Fastenal Part# 921713774

Pogo sign stand designed to push into the ground and hold a 36" or 48" roll-up sign

EMSS# PGS

## Fastenal Part# 921713777

Aluminum coil-flex wind-deflectable compact stand 30" spin handle roll-up attachment extendable leg kick-lever leg-release system

EMSS# C-801-L-KLSH

## Fastenal Part# 921713772

Tripod sign stand for use with rigid signs & roll-up signs

EMSS#E-55

## Fastenal Part# 921713778

Aluminum coil-flex wind-deflectable compact stand 30" latch bracket roll-up attachment extendable leg kick-lever leg-release system

EMSS# C-801-L-KLLT

## Fastenal Part# 921713780

Galvanized steel tri-pod stand folding leg-release system rigid sign holder

EMSS# E-353

## Fastenal Part# 921713779

Steel coil-flex wind-deflectable compact stand 22" spin handle roll-up attachment extendable leg kick-lever leg-release system

EMSS# C-301-S-KLSH

## Fastenal Part#921713784

Galvanized steel tri-pod stand folding leg-release system roll-up & rigid sign holder

EMSS# E-352

## Fastenal Part# 921713781

Aluminum dual coil-flex wind-deflectable full size sign stand displays rigid sign up to 5' above grade

EMSS#X-602-KL

## Fastenal Part# 921713785

Aluminum compact sign stand 24" with spin hand roll-up attachment kick-lever leg-release system

EMSS# C-601-S-KLSH

## Fastenal Part# 921713783

Aluminum dual coil-flex wind-deflectable full size sign stand displays rigid sign up to 5' above grade or roll-up sign up to 7.5' above grade

EMSS#X-603-KL

## Fastenal Part# 921713788

Steel compact sign stand 24" with spin hand roll-up attachment kick-lever leg-release system

EMSS# C-102-S-KLSH

## Fastenal Part# 921713776

Aluminum dual coil-flex wind-deflectable full size sign stand displays roll-up sign up to 7.5' above grade

EMSS# X-601-KL

## Fastenal Part# 921713770

Aluminum leaf spring wind-deflectable compact stand 24" with spin hand roll-up attachment extendable legs kick-lever leg-release system

EMSS# C-902-S-KLSH

## Fastenal Part# 921713771

Galvanized steel dual coil-flex wind-deflectable mid size sign stand displays roll-up signs up to 5' above grade

EMSS# X-551-KL

## Fastenal Part#921713773

Aluminum leaf spring wind-deflectable compact stand 30" with spin hand roll-up attachment extendable legs kick-lever leg-release system

EMSS# C-902-L-KLSH

## Fastenal Part# 921713775

Galvanized steel dual coil-flex wind-deflectable mid size sign stand displays rigid signs up to 2.5' above grade or roll-up sign up to 5' above grade

EMSS# X-553-KL

## Fastenal Part#921713782

Steel leaf spring wind-deflectable compact stand 24" with spin hand roll-up attachment extendable legs direct drive leg-release system

EMSS#C-202-S-DDSH

## Fastenal Part# 921713786

Galvanized steel dual coil-flex wind-deflectable mid size sign stand displays rigid signs up to 2.5' above grade

EMSS# X-552-KL

Customization and additional items are available. Contact us for details.

## STOP/SLOW PADDLES

Most traffic control regulations require the use of a STOP/SLOW paddle or flagger-helper when performing work on non-highway locations. We offer the paddle sizes and reflectivity option that conform with federal and state requirements. Lightweight, rugged PVC handle and support staff minimizing operator fatigue.

## STOP/SLOW FLAGGER HELPER W/ STAFF

ABS Paddle and PVC Staff are lightweight, non-conductive and rugged. Support-Staff minimizes operator fatigue and increases visibility, improving operator safety.

# DIAMOND GRADE

Diamond grade roll-up sign with 4 lexan pockets with anti-kiting. The sheeting is a visible light-activated fluorescent prismatic lens reflective sheeting designed for the production of Roll-Up traffic control signs used in construction work zones. This sign sheeting is designed to provide higher nighttime sign brightness. sheeting has higher daytime brightness than ordinary (non- fluorescent) colored sheeting. Sheetting is backed with a strong, flexible, gray-coated fabric.

# MARATHON ROLL-UPS

Marathon roll-up sign with 4 lexan pockets with anti-kiting Marathon Fluorescence take performance to a higher level. The longer lasting fluorescent color gives the sign a longer useful life and offers outstanding visibility, day and night. Higher levels of photometric performance ensure superior reflectivity at night and in low light conditions.

# SUPER BRIGHT ROLL-UPS

Super Bright roll-up sign with 4 lexan pockets with anti-kiting. One of most popular products. Super Bright fluorescent prismatic sign blanks are used to create the work zone signs you see on the road. You benefit from maximum visibility at long distances, day and night. Super Bright colors are: fluorescent orange, non-fluorescent white, yellow and the new fluorescent pink color recommended for Incident Management applications.

# NON-REFLECTIVE ROLL-UPS

NRFVO roll-up sign with 4 lexan pockets with anti-kiting. NRFVO Roll-Up Signs are constructed of a fabric reinforced UV stable vinyl. This construction will not delaminate and provides excellent durability and fluorescence stability. NRFVO Signs are suitable for maintenance and moving operations. They are intended for daytime use only. They are not intended for use during night operations or low light conditions.
