INTRODUCING

THE APEX LINE OF SIGN STANDS.
THE NEXT GENERATION OF STANDS

INNOVATION, ENGINEERING, AND CRAFTSMANSHIP COME TOGETHER TO BUILD THE APEX LINE OF TEMPORARY TRAFFIC CONTROL DEVICES.

Eastern Metal Signs and Safety, a leading manufacturer of sign holders and stands, has recently introduced a new product line to meet the needs of temporary traffic control. The new stands are lightweight and folds up easily to be stored until needed. It also has a variety of different signs that can be attached to it. This is from a lineage that stretches back almost 70 years. The recent mash testing and rigid crash test standards have shown this to be an innovative, durable product that should serve the needs of those in need of temporary traffic control signage well.

these stands are specially designed for work zones and construction sites. They can hold a variety of vinyl and rigid signs for warning and incident signage. These stands are easy to use and store until needed in a work zone or anyplace that needs incident signage.

These stands survived being field tested in 1000's of work zones all over the United States. On top of that, they have passed rigorous crash testing in a crash test engineering facility.

These are manufactured in our New York manufacturing facility and distributed to warehouses in the USA. This means no one can process orders as fast as we can.

These stands deploy quickly and easily. Our multi position leg system allows for flexibility even on the most uneven terrain. With additional attention to detail, all of the Apex stands feature anti-skid foot pads giving you that extra peace of mind on-site.

The Apex line has a configuration to fit most any need in its stock configuration. Other configurations are available upon request.

THE NEXT GENERATION OF SIGN STANDS

- MASH TESTED
- MADE IN THE USA
- DIRECT DRIVE DURABILITY
- FIELD TESTED & PROVEN RELIABLE IN 1000S OF WORK ZONES
- RIGID CENTER MAST

FEATURES

Apex stands are rugged and reliable, deploy quickly, fold small, and are economical.

Apex legs offer maximum resistance to rust and corrosion.

The 2-position, 2-piece telescoping legs adjust for maximum stability on uneven terrain and road shoulders. Leg lengths options available see chart below.

Apex Series Stands come standard with direct drive and kick lever are available upon request.

Roll-Up Signs attach to the Apex Series Stands with a Spin-Handle, or Latch Bracket available upon request.

Apex Series is Mash Compliant 2016 with roll-ups.

THE NEXT GENERATION OF SIGN STANDS

- MASH TESTED
- MADE IN THE USA
- DIRECT DRIVE DURABILITY
- FIELD TESTED & PROVEN RELIABLE IN 1000'S OF WORK ZONES
- LEAF SPRING WIND DEFLECTION

FEATURES

Adjustable fiberglass leaf-spring provides optimal wind-deflection in all conditions and will not fatigue or break during normal use.

Galvanized aluminum legs offer maximum resistance to rust and corrosion. The 3-position, 2-piece telescoping legs adjust for maximum stability on uneven terrain and road shoulders.

Legs available in Short (38" extended) -or- Long (50" extended).

Apex Flex Stands these come standard with direct drive, kick lever is available upon request.

Roll-Up Signs attach to the Apex Flex Series Stands with a Spin-Handle which are standard to the unit. Latch brackets are also available by request.

Apex Flex Series Stands are Mash 2016 compliant and accepted for use with All Roll-Up Signs.

THE NEXT GENERATION OF SIGN STANDS

- MASH TESTED
- MADE IN THE USA
- DIRECT DRIVE DURABILITY
- FIELD TESTED & PROVEN RELIABLE IN 1000'S OF WORK ZONES
- DUAL LEAF SPRING WIND DEFLECTION

FEATURES

Dual Vertical steel coil-springs provide optimal wind-deflection and superior lateral stability.

Three Sign-Holder options for Rigid and/or Roll-Up Signs offer maximum versatility

Standard Direct-Drive leg release system available with kick lever Legs and mast are corrosion-resistant steel.

Telescoping full-mast displays Rigid Signs 18"- 60" mash approved at 18 inches above grade (Roll-Ups 14"- 84" above grade).

3 position legs adjust for maximum stability on uneven terrain/shoulders or optimal height.

Dual Recoil Series displays ANY size or shape rigid (hard) sign, or Roll-Up Sign.

Dual Recoil Series Features Break-A-Way Safety-Mast

MASH Tested Approved Substrates: Aluminum, Roll-ups, Aluminum Composite Material.

3 Flag holder.

- DUAL COIL SPRING WIND DEFLECTION

FEATURES

Dual vertical steel coil-springs provide optimal wind-deflection and superior lateral stability.

Three sign-holder options for rigid and/or roll-up signs offer maximum versatility

Standard direct-drive leg release system, available with kick lever upon request.

Legs and mast are corrosion-resistant aluminum.

Telescoping full-mast displays rigid signs 14" - 60" above grade (roll-ups 14" - 84" above grade)

3 position legs adjust for maximum stability on uneven terrain/shoulders for optimal height.

Dual recoil max series displays any size or shape rigid (hard) sign, or roll-up sign.

Dual recoil max series features break-a-way safety-mast. MASH tested approved substrates: aluminum, roll-ups, aluminum composite material.

Comes standard with 3 flag holder.

FEATURES

Apex summit is designed to display rigid signs 14" - 6' above grade, roll-ups 14" - 10' above grade.

Dual fiberglass leaf-springs provide industry-best lateral stability and wind-deflection.

Aluminum (.100" wall) legs and telescoping half-mast offer maximum resistance to rust and corrosion and are light weight. The 2 position base offers stability on uneven terrain and road shoulders.

Standard with direct-drive leg release system, for rigid/roll-up signs.

Comes standard with 3-flag holder.

Mash 2016 tested approved for these substrates: aluminum, roll-ups, aluminum composite material.

APEX TRIPOD

THE NEXT GENERATION OF SIGN STANDS

- MASH TESTED
- MADE IN THE USA
- DIRECT DRIVE DURABILITY
- FIELD TESTED & PROVEN RELIABLE IN 1000'S OF WORK ZONES

FEATURES

Simple, durable tri-pod design, economical price, and ease-of-use provide outstanding value.

Heavy duty steel tube construction ensures durability and long term performance.

Steel legs and telescoping mast are galvanized for maximum resistance to rust and corrosion.

Apex tripod includes two rigid sign holders with an optional roll-up holder.

Apex tripod is MASH 2016 compliant for approved for these substrates:

- ABS plastic (to 1/4")
- Plywood (to 5/8"),
- Aluminum (to .125")
- Corrugated Plastics
