UNLOCKING PROFIT POTENTIAL: WHY GRAINGER SALESPEOPLE SHOULD SELL TRAFFIC SAFETY DEVICES?

**Are you ready to take your sales
game to the next level in 2024?**

We, Eastern Metal Signs and Safety, are thrilled to present you with an unparalleled opportunity to expand your portfolio and tap into a booming market: traffic safety devices.

If you are new to the world of traffic safety devices, we understand that you may be wondering why you should consider selling these products.

Allow us to convince you!

TOP REASONS

- **Lucrative Market Potential:** The demand for traffic safety devices is booming, offering a significant profit potential.
- **Roll-Up Signs:** Our lightweight and durable roll-up signs offer superior visibility and compliance with traffic regulations.
- **Sign Stands:** Our top-of-the-line sign stands ensure secure and visible display of signs in any environment.
- **Comprehensive Support:** We provide detailed product training, marketing materials, and technical assistance to support your success.
- **Trusted Partner:** With over 75 years of experience, we are a trusted industry leader with a strong reputation.
- **Diversify Sales:** Selling traffic safety devices allows you to tap into a thriving market and expand your sales portfolio.

Why Salespeople Should Sell Roll-Up Signs

High Demand and Repeat Sales: Roll-up signs are consumable products that often need replacement due to wear and tear, loss, or damage. This creates a continuous demand for these products, leading to repeat sales and a steady revenue stream.

Customization Opportunities: Roll-up signs can be easily customized to display specific messages, logos, or designs. This allows salespeople to offer personalized solutions to their customers, adding value and enhancing customer satisfaction.

Regulatory Requirements: Many states require the use of roll-up signs in work zones for safety purposes. This regulatory requirement ensures a consistent market for these products.

Versatility and Broad Market Appeal: Roll-up signs are versatile and can be used in a variety of settings, from construction sites to events, increasing their market appeal. This versatility opens up numerous sales opportunities across different sectors.

Profitability: Due to their high demand, regulatory requirements, and customization opportunities, roll-up signs can be a profitable addition to a salesperson's product portfolio. They are an attractive product for both salespeople and their customers.

Eastern Metal Signs & Safety isn't just any traffic equipment supplier. They're a trusted partner for a diverse range of organizations dedicated to keeping roads safe and clear. Here's a glimpse into their clientele:

- **Municipalities:** Cities, towns, guiding roads with signs & barriers.
- **State DOTs:** High-traffic heroes, equipping highways & bridges.
- **Construction Crews:** Work zone warriors, securing projects with cones & warnings.
- **Schools & Campuses:** Protecting students & staff with pedestrian-friendly solutions.
- **Businesses & Property Owners:** Parking lot peacekeepers, maintaining order & preventing accidents.

REFLECTIVE VINYL PROVIDES AN EARLY, HIGH-VISIBLE
WARNING TO MOTORISTS AND PEDESTRIANS.

MARATHON ROLL-UPS

- Marathon fluorescence roll-ups take performance to a higher level.
- Marathon roll-ups have longer lasting fluorescent color.
- Marathon roll-ups have outstanding visibility, both day and night.
- Higher levels of photometric performance ensure superior reflectivity at night and in low light conditions.

DIAMOND GRADE ROLL-UPS

- Diamond Grade optics provide superior brightness and angularity.
- Highly reflective, wide-angle, prismatic material.
- Higher nighttime sign brightness than sheeting that uses glass bead lenses.
- Support smooth traffic response with 24-hour conspicuity and early driver recognition.

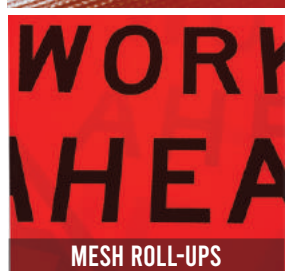

SUPER BRIGHT ROLL-UPS

- Maximum visibility at long distances.
- Super Bright comes in multiple colors.
- Super Bright fluorescent pink color is recommended for Incident Management applications.

NON-REFLECTIVE VINYL ROLL-UPS

- Signs are constructed of UV stable vinyl.
- Non-reflective vinyl roll-ups are for daytime use only, they are not intended for use during night operations or low light conditions.
- Because non-reflective vinyl roll-up are for daytime use only, they are not intended for long-term work zone applications.

MESH ROLL-UPS

- Non-reflective mesh roll-ups are for daytime use only, they are not intended for use during night operations or low light conditions.
- Because Non-reflective mesh roll-ups are for daytime use only, they are not intended for long-term work zone applications.

OVERLAY PROVISIONS

- Available in all roll-up sign materials.
- Sewn hook and loop material allow change to the legend on the sign face.
- Overlays help reduce full-size sign inventory and give your roll-ups signs more versatility in temporary work zones.

VISUAL-ALERT™

STOP/SLOW PADDLES

- Visual Alert™ out performs traditional paddles regardless of lighting or weather conditions.
- Visual-Alert™ flashing LED's provide earlier visibility than paddles without LED's.
- Available with multiple options of reflective sheeting on both sides.
- State & Local requirements determine appropriate Paddle size & paddle reflectivity level.
- Available in both 18" and 24"
- 72" and 84" support staff available. Support Staff helps limit operator fatigue.
- Operates in all weather conditions.
- All Paddles have manual On/Off buttons. 18" Paddles also turn on or off when raised or lowered.
- Will operate for over 20 hours continuously on 3 C-Cell batteries for the 18" and 4 C-Cell batteries for the 24"

PEDESTRIAN SIGNS BASE AND SIGN

Frame and Base separate upon impact, minimizing damage to Frame and Panels. Panels, Frame, and Base are available separately, and are easily replaced if hit or damaged. Barricade Lights (sold separately) increase visibility, and attach easily using a standard 1/2" bolt.

Extra-large frame-top handle allows for easy gripping – with or without light attached. Signs available with either YIELD TO -or STOP FOR and single or double pedestrian symbol (all are MUTCD compliant).
